Atlanta, GA 30306
404.872.0904 x29

Description This 1,520 sf retail building is part of our firm's continued evolution of projects in the vibrant Virginia Highlands neighborhood. The building's scale, proportions, attention to detail, color, and material integrity draw from the checkerboard of influences in the neighborhood, both old and new, giving it a timeless quality. Since the building has been zoned for both commercial and restaurant use, it has been structured so that a mezzanine level can be added to the double-height interior space to accommodate a future restaurant.
