

John R. Stephenson, AIA, LEED Green Associate
Director of Design

John is a problem-solving innovator with over 25 years of extensive experience in all aspects of the architectural profession. He has been involved in a broad spectrum of project types; however, the majority of his work has been in the area of design for science, technology and education. Additional areas of expertise have been for meeting and large assembly, all with a focus on design and management.

His strengths are in the design and management of both large and technically sophisticated projects as well as smaller projects needing quick response. The hallmark of all of his projects has been a focus on the client's goals and objectives as well as the user's needs. All of his projects have resulted in high levels of satisfaction by the clients, users and the community at large. Several of these projects have been awarded national awards including the prestigious Chicago Athenaeum American Architecture Award, and the ULI Development of Excellence Award.
