

Kathleen Collier
Director of Library Services

Kathleen Collier joined Richard Wittschiebe Hand following 25 years of professional work in dance and the performing arts. Kathleen assists in specifying furniture, finishes, and equipment for projects, and is instrumental in writing and editing marketing materials, specifications, AIA contract documents, and website content. She assists the architectural team with product and vendor research to support design options and to provide the architects with ready access to current information. It is her challenge to expedite the flow of information, to handle unique requests, and to help ensure that RWH clients are served in a responsive, professional manner.
