

Natalie Martinez, AIA, RID, LEED ^{AP} BD+C
Architect/Interior Designer

Natalie Martinez is a licensed architect and registered interior designer. She has worked in the architecture and construction fields for over ten years. As a LEED Accredited Professional, Natalie brings her interest in sustainable design to every project.

Natalie has experience with the production and coordination of projects from conceptual stages through contract administration. Natalie's day-to-day tasks include collaborating and coordinating with consultants, working closely with cost estimators to monitor project costs, and developing designs and documents using Building Information Modeling (BIM) software.
